

**BURSA MALAYSIA DERIVATIVES BERHAD**

**Date : 13 April 2015**

**Trading Participant Circular: 10/2015**

**BUSINESS CONTINUITY PLAN (BCP) SIMULATION EXERCISE ON 25 APRIL 2015  
(UPDATE)**

Reference is made to the Trading Participant Circular 5/2015 pertaining to the same subject that was issued on 24 February 2015. The Exchange would like to confirm that the BCP Simulation Exercise will proceed as scheduled on **Saturday, 25 April 2015** and participation is **mandatory** for all Trading Participants.

The BCP exercise will simulate the failover from CME's main site in Chicago to CME's Disaster Recovery site in New York. Trading Participants and their customers may refer to the following URL for details of how the disaster recovery process is being handled in such a situation.  
<http://www.cmegroup.com/confluence/display/EPICSANDBOX/Order+Entry+Path+DR+Process>

The salient points to take note of on the DR process are:

- All sequence numbers are reset
- All open orders from CME Globex Production are unavailable and will be purged by the trading engine
- Cancellation messages will not be sent to customers
- Customers must clear their systems of any working orders (GTC/GTD)

Trading Participants and their customers who will be participating in the exercise must coordinate with their OMS vendors to ensure that the above requirements are met.

Provided herewith is the planned chronology of activities to be carried out for the event. The feedback form for Trading Participants including test requirements is also provided.

Should you have any queries, please do not hesitate to contact the Trading Operations Department.
