8 January 2015

The Company Secretary  
(Listed Corporation)

Dear Sir/Madam,

**BURSA MALAYSIA SECURITIES BERHAD (the "EXCHANGE")  
INTRODUCTION OF THE EXCHANGE'S NEW LISTING INFORMATION NETWORK SYSTEM  
("NEW BURSA LINK")**

---

The Exchange's current Listing Information Network System ("LINK") was implemented to provide Listed Issuers with a secure infrastructure for dissemination of information such as announcements to the investing public.

In line with the Exchange's commitment to continuously enhance and improve our service levels to stakeholders, we are pleased to inform that we will be introducing a new LINK system to all LINK users. This new system will be the new platform for the Exchange to digitize its processes including all applications to be submitted to the Exchange.

This new system is aimed at addressing the current and future needs of Listed Issuers and is expected to improve operational efficiencies of all LINK users. These improvements are also in tandem with the Exchange's mission for a sustainable growth of the capital market.

The New BURSA LINK system which is an entirely new system engineered from ground up with enhanced functions and features will:

- (i) facilitate a more efficient and effective dissemination of information by amongst others minimising data entry, reducing transcription errors and administrative processes;
- (ii) provide greater automation through electronic submissions of applications (e.g. clearance of circulars as well as applications for IPO and secondary fund raisings); and
- (iii) be a centralised platform for a two-way communication system between Listed Issuers and the Exchange.

### THE NEW BURSA LINK SYSTEM

The New BURSA LINK system which will replace the current BURSA LINK system, is targeted to be launched in the second quarter of 2015 and will be fully web-based. To facilitate the dissemination of announcements as well as the submission of applications via the New BURSA LINK, all Listed Issuers are required to meet the minimum information technology system requirement which includes the following:

Operating system	Windows 7 (with Service Pack 1 or higher) or Windows 8.1
Processor	Core i5
Memory	4GB RAM
Hard disk space	At least 2GB of free disk space
Screen resolutions	<ul style="list-style-type: none"> <li>• Width of 1280 pixels for optimal display</li> <li>• Minimum width of 1024 pixels for functional display</li> </ul>
<ul style="list-style-type: none"> <li>• The benchmark for “optimal display” is for as many table/view columns to readily appear on the screen without a user having to scroll or resize column widths to view columnar data. The basis for the number of columns to display is to be within practical reason.</li> <li>• “Functional display” means the user can continue to use the application without any functional problems despite not using the recommended screen resolution for optimal display.</li> </ul>	
Others	<ul style="list-style-type: none"> <li>• Enable web browsers to run JavaScript</li> </ul>

Listed Issuers will be required to have the requisite information technology infrastructure (hardware and software) in place by the middle of March 2015 to ensure that it will be ready to utilise the new BURSA LINK.

In order to familiarise Listed Issuers with the New BURSA LINK, the Exchange will be conducting the relevant briefings for Listed Issuers prior to the launch, the attendance of which is compulsory. Further details of the New BURSA LINK together with the dates for which the briefings will be conducted will be communicated in due course.

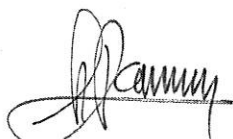

#### **CONTACT PERSONS**

In the meantime, should you have any enquiries on the above, please contact any of the following persons:

Advisers

Dear Sir/Madam,

**BURSA MALAYSIA SECURITIES BERHAD (the "EXCHANGE")  
INTRODUCTION OF THE EXCHANGE'S NEW LISTING INFORMATION NETWORK SYSTEM  
("NEW BURSA LINK")**

---

The Exchange's current Listing Information Network System ("LINK") was implemented to provide Listed Issuers with a secure infrastructure for dissemination of information such as announcements to the investing public.

In line with the Exchange's commitment to continuously enhance and improve our service levels to stakeholders, we are pleased to inform that we will be introducing a new LINK system to all LINK users. This new system will be the new platform for the Exchange to digitize its processes including all applications to be submitted to the Exchange.

This new system is aimed at addressing the current and future needs of Listed Issuers/Advisers and is expected to improve operational efficiencies of all LINK users. These improvements are also in tandem with the Exchange's mission for a sustainable growth of the capital market.

The New BURSA LINK system which is an entirely new system engineered from ground up with enhanced functions and features will:

- (i) facilitate a more efficient and effective dissemination of information by amongst others minimising data entry, reducing transcription errors and administrative processes;
- (ii) provide greater automation through electronic submissions of applications (e.g. clearance of circulars as well as applications for IPO and secondary fund raisings); and
- (iii) be a centralised platform for a two-way communication system between Listed Issuers/Advisers and the Exchange.

### THE NEW BURSA LINK SYSTEM

The New BURSA LINK system which will replace the current BURSA LINK system, is targeted to be launched in the second quarter of 2015 and will be fully web-based. To facilitate the dissemination of announcements as well as the submission of applications via the New BURSA LINK, all Advisers are required to meet the minimum information technology system requirement which includes the following:

Operating system	Windows 7 (with Service Pack 1 or higher) or Windows 8.1
Processor	Core i5
Memory	4GB RAM
Hard disk space	At least 2GB of free disk space
Screen resolutions	<ul style="list-style-type: none"> <li>• Width of 1280 pixels for optimal display</li> <li>• Minimum width of 1024 pixels for functional display</li> </ul>
	<ul style="list-style-type: none"> <li>• The benchmark for “optimal display” is for as many table/view columns to readily appear on the screen without a user having to scroll or resize column widths to view columnar data. The basis for the number of columns to display is to be within practical reason.</li> <li>• “Functional display” means the user can continue to use the application without any functional problems despite not using the recommended screen resolution for optimal display.</li> </ul>
Others	<ul style="list-style-type: none"> <li>• Enable web browsers to run JavaScript</li> </ul>

Advisers will be required to have the requisite information technology infrastructure (hardware and software) in place by the middle of March 2015 to ensure that it will be ready to utilise the new BURSA LINK.

In order to familiarise Advisers with the New BURSA LINK, the Exchange will be conducting the relevant briefings for Advisers prior to the launch, the attendance of which is compulsory. Further details of the New BURSA LINK together with the dates for which the briefings will be conducted will be communicated in due course.
