For the avoidance of doubt, this Directive shall not be construed so as to authorise the General Clearing Participant to deposit Clients' securities with the Clearing House for the purpose of the General Clearing Participants' Margin payment to the Clearing House where the Memorandum of Deposit has not been executed by the Clients.

10. Rule 4.16(4)

Rule 4.16(4) requires a General Clearing Participant to ensure that except for Market Contracts which reduce a Client's margin obligation, no new Market Contracts are entered into by the Client unless the minimum margin for the Market Contracts are on deposit or is forthcoming within such period as may be prescribed by the Clearing House from time to time after a call for margin has been made by the General Clearing Participant and that Client's pre-existing Open Positions comply with the margin requirements established by the General Clearing Participant. In discharging the obligation under the said Rule, a General Clearing Participant must, amongst others, comply with the requirements set out below.

10.1 Time period prescribed under Rule 4.16(4)

The Clearing House has specified that a reasonable time for the purposes of Rule 4.16(4) is 3 Business Days from the transaction date.

[End of Directive]

GUIDELINE 1 – MARGIN RATES AND DEPOSITS

1.1 MARGIN RATES

Clearing Participants are required to collect margins from their clients for all open positions maintained by them to ensure performance of the contracts. The minimum margins required are set by the Clearing House and regular circulars are issued by the Clearing House on changes in the margin levels.

In accordance with Rule 4.16(1) and (2) of the Rules of the Clearing House, the amount of margin to be collected from clients shall be at least equivalent to the amount of margins required by the Clearing House. However, Clearing Participants may, at their absolute discretion, prescribe margin rates/requirements above the Clearing House's minimum margin requirements.

1.2 FORMS OF MARGIN DEPOSITS

Rule 4.16(3) of the Rules of the Clearing House and Paragraph 9 of the Clearing House's Directive No. 4-001 (Directive on Conduct of Business) sets out the acceptable forms of margin deposits.

For bank guarantee, it is the responsibility of the Clearing Participants to ensure that the bank guarantee is accepted only if it is capable of being called upon immediately without any restrictions, limitations or conditions imposed by the issuing bank. The bank guarantee must contain a clause to this effect.

GUIDELINE 2 – MARGIN CALLS

2.1 ISSUANCE OF MARGIN CALLS

Margin deposit acts as good faith deposit or performance bond for futures contract and for this purpose, margin call is issued to collect the required margin from the client.

It is the responsibility of the Clearing Participants to call for margins from their clients once the clients' accounts become undermargined. An account is undermargined if the account's total net equity plus acceptable margin deposit is less than the margin requirement. The difference between the total net equity plus acceptable margin deposit and the margin requirement denotes the amount of margin the Clearing Participant must call in order to restore the account's margin deficiency status.

Margin call must be made within one business day after the occurrence of the event giving rise to the call. If the Clearing Participant is unable to contact the client personally, a written margin call notice sent to the client at the latest address provided by the client shall be deemed as sufficient.

Clearing Participants may, at their absolute discretion, call for additional margin intra-day or at any time that the Clearing Participants deem it necessary to cover any additional risks associated with the clients' positions.

2.2 COMPUTATION OF MARGIN CALLS

For the purpose of determining the amount of margin call, the account shall be reviewed as of the close of the trading day.

A required margin call is calculated as follows:

$$\text{Required Margin Call} = \text{Margin Requirement} - (\text{Net Equity} + \text{Margin Deposit} + \text{Outstanding Margin Calls})$$

where:

Margin requirement refers	Clearing Participant's margin requirement or if this is not applicable, the Clearing House margin requirement
Net equity refers	the total of an account's cash ledger balance, profit or loss on open futures contract and the net current market value of open options contract.
Margin deposit refers	acceptable forms of margin payment approved by the Clearing House (as mentioned in this Guideline 1.2)
Outstanding margin calls refers	margin calls previously issued which remain unpaid

2.3 AGING OF MARGIN CALLS AND MONITORING PROCEDURES

Margin calls issued must be aged individually and separately throughout their existence. An account's total margin call is the sum of all individually aged margin calls and the oldest outstanding margin call shall be reduced first.

In aging of margin calls and for monitoring of margin payments, the following definitions shall apply:

T	=	the transaction date when position is established/account becomes undermargined
T+1	=	first business day after transaction date/day margin call is issued
T+2	=	second business day after transaction date
T+3	=	third business day after transaction date

Clearing Participants must ensure that they have adequate procedures in place to ensure that appropriate margin calls are made promptly and are properly monitored and followed up. To achieve this, Clearing Participants are required to establish procedures to include maintenance of written records indicating for each client:

- amount of margin call made
- date that the client is contacted and whether contacted by telephone or in writing
- age of the margin call
- status of the margin call i.e. is the margin call met by funds received, liquidation of position, etc and the date this event occurred.

2.4 TIMING OF MARGIN PAYMENT

In accordance with Rule 4.16 of the Rules of the Clearing House, Clearing Participants are required to collect margin from their clients for all open positions held. Margin is required to be collected either on an upfront basis or within a reasonable time frame as prescribed by the Clearing House.

For this purpose, the Clearing House has defined the reasonable time frame to be 3 business days from transaction date. However, Clearing Participants, may at their absolute discretion, shorten the time frame of the margin to be collected from their clients to less than 3 business days.

The reasonable time frame is considered met when the cash funds have been remitted and banked-into the client's Segregated Account. Clearing Participants should not treat the cash funds as received although the client's remittance shows the funds are forthcoming on a future value date.

For example, if the Clearing Participant received a confirmation from the client's banker advising that on T+1, the client has remitted RM1 million for value date T+3, then the funds can only be included in the client's net ledger balance at the close of trading on T+3. In this situation, the margin is considered as forthcoming within the reasonable time frame i.e. the margin call is met within the prescribed time frame.

However, in the case where the Clearing Participant received a confirmation from the client's banker advising that on T+1, the client has remitted RM1 million for value date T+5, then the funds can only be included in the client's net ledger balance at the close of trading on T+5. In this situation, the margin is not considered as forthcoming within the reasonable time frame and thus, the margin call is not met within the prescribed time frame.

For margin payment using cheques, the call is considered met upon banking-in of cheques.

2.5 REDUCTION AND NEGATION OF MARGIN CALLS

Reduction of margin call means the total outstanding amount of margin call in an account is partially reduced or decreased but, the remaining amount of margin call must still be met by the client. A margin call may only be reduced through the receipt of cash and/or other acceptable margin deposits, which are less than the amount of margin call.

In contrast, negation of margin call means cancellation or elimination of an account's margin call in its entirety. A margin call may be negated through:

- receipt of cash and/or acceptable margin deposits, which are equal or greater than the amount of the margin call; or
- inter-day favorable market movement and/or liquidation of position only if the account's total net equity is equal or greater than the margin requirement as of the close of the trading day. In such a case, the account is no longer in a margin deficiency status and hence, justify the reason for a negation of margin call; or
- a combination of the two factors above which results in the account's total net equity being equal or greater than the margin requirement as of the close of the trading day.

(NB: An account's total net equity means net equity plus acceptable margin deposit.)

The margin requirement here is defined as the Clearing Participants' margin requirements. This would mean, if the Clearing Participants prescribe a margin requirement higher than the minimum margin requirement of the Clearing House, then the higher margin requirements shall apply.

In addition, it is important to note that the practice of liquidation and re-establishment of position to circumvent the margin rules is disallowed.

2.6 ILLUSTRATIONS OF MARGIN CALL REDUCTION AND NEGATION

Tabled below are the various illustrations on how margin calls can be reduced or negated based on the concepts laid down in Guideline 2.5 above.

Please note the following assumptions used in all the illustrations:

1. Account balances and margin requirements are as of the close of trading day.
2. The account was properly margined on the previous trading day (Friday).
3. Margin call issued is equal to:

Margin Requirement less (Net Equity + Margin Deposit + Outstanding Margin Calls)

Note C

Note A: An additional margin call of RM13,000 was issued due to unfavorable market movement on Tuesday on top of the RM20,000 margin call.

Note B: On Wednesday, further unfavorable market movement created another additional margin call RM2,000. Both the margin calls of RM20,000 and RM13,000 were still outstanding.

Note C: Margin deposit of RM40,000 was received on Thursday. This deposit was sufficient to negate all the outstanding margin calls amounting to RM35,000. Account's net equity was higher than the margin requirement hence, no longer in margin deficiency status on Thursday.

Note A: An additional margin call of RM13,000 was issued due to unfavorable market movement on Tuesday on top of the RM20,000 margin call.

Note B: On Wednesday, further unfavorable market movement created another additional margin call RM2,000. Both the margin calls of RM20,000 and RM13,000 were still outstanding.

Note C: Margin deposits of RM15,000 was received on Thursday. This deposit was only sufficient to reduce the oldest aged outstanding margin call of RM20,000 to RM5,000 but not enough to negate the call. Apart from the RM5,000 balance, margin calls of RM13,000 and RM2,000 were still outstanding. Account was still in margin deficiency status as its net equity is lower than the margin requirement.

Note C

- Note A:** Despite a small favorable market movement on Tuesday, account's net equity was still below margin requirement. Margin call of RM4,000 was outstanding since this favorable market movement was not enough to negate the margin call and no margin deposit was received.
- Note B:** Unfavorable market movement resulted in another fresh margin call amounting to RM3,000. Margin call of RM4,000 was still outstanding.
- Note C:** Positions partially liquidated on Thursday thus, reduction in margin requirement to RM40,000. Both margin calls were negated as net equity was above margin requirement. Account was no longer in margin deficiency status.

	Note A	Note B	Note C	

Note A: Despite a small favorable market movement on Tuesday, account's net equity was still below margin requirement. Margin call of RM4,000 was outstanding as this favorable market movement was not enough to negate the margin call and no margin deposit was received.

Note B: Position partially liquidated thus, reduction in margin requirement to RM55,000 on Wednesday. However, market moved unfavorable to a deficit of RM7,000 on this day. Therefore, despite partial liquidation, the unfavorable market movement resulted in net equity lower than margin requirement. Account in margin deficiency status and margin call of RM4,000 was still outstanding.

Note C: Further liquidation of positions on Thursday thus, reduction in margin requirement to RM40,000. However, market moved unfavorable to a deficit of RM8,000 on this day. Therefore, despite partial liquidation, the unfavorable market movement resulted in net equity lower than margin requirement. Despite account in a lower margin deficiency level, margin call of RM4,000 was still outstanding.

Note B

Note A: On Tuesday, occurrence of favorable market movement of RM13,000 and position was partially liquidated thus, reduction in margin requirement to RM49,000. However, margin call of RM28,000 was not negated as both of these conditions were insufficient to improve net equity above the margin requirement. Account remained in margin deficiency status.

Note B: Favorable market movement occurred on Wednesday. Position was further liquidated thus, reduction in margin requirement to RM35,000. Margin call of RM28,000 was properly negated as net equity was greater than margin requirement as a result of further favorable market movement and liquidation of position.

- Note B:** Favorable market movement occurred on Wednesday of RM4,700. However, net equity was still lower than margin requirement hence, the margin call of RM9,000 was still outstanding as no margin deposit was received.
- Note C:** Further favorable market movement of RM2,100 was noted on Thursday. This resulted in net equity greater than margin requirement. Account no longer under margin deficiency status and margin call was negated.

Note A

Note B

Note A: Favorable market movement occurred on Tuesday of RM10,000 and position partially liquidated thus, reduction in margin requirement to RM56,000. Also, cash deposit of RM15,000 was received on the same day. These conditions would reduced margin call to RM18,000 due to receipt of cash but not negated as net equity was less than margin requirement despite favorable market movement on the day and partial liquidation of position. Account was still under margin call.

Note B: Favorable market movement occurred on Wednesday. Margin call was negated as net equity was more than margin requirement as a result of further favorable market movement of RM3,000 and partial liquidation of position.

GUIDELINE 3 – UNDERMARGINED AND DEBIT ACCOUNTS TRADING

3.1 UNDERMARGINED AND DEBIT ACCOUNTS

An account is considered as undermargined when it is in a margin deficiency status i.e.: the account's total net equity plus acceptable margin deposits is less than the margin requirement. In such a case, margin call will be issued on the account for the deficit amount. If an account has an outstanding margin call in excess of the allowable time frame for margin payment, then the account is considered to be undermargined for an unreasonable time.

On the other hand, a debit account refers to:

- unsecured debit account
an account who has a negative net equity balance that is not secured by acceptable margin deposit. It may also arise in a situation where an account has liquidated all its positions resulting in a debit balance.
- secured debit account
an account with debit balance (i.e. a negative net equity balance) but is secured by acceptable margin deposit. In such a case the account may trade and hold positions provided the debit balance plus the value of acceptable margin deposit does not result in a negative balance.

3.2 PERMISSIBLE TRADING ACTIVITIES

In accordance with Rule 4.16(4) of the Rules of the Clearing House, a Clearing Participant must ensure that except for trades which reduce a client's margin requirements, no new Market Contracts are entered into by the client unless the minimum margin for the Market Contracts are on deposit or is forthcoming within such period as may be prescribed by the Clearing House from time to time after a call for margin has been made by the Clearing Participant and that client's pre-existing Open Positions comply with the margin requirements established by the Clearing Participant. This period is prescribed to be 3 business days from the transaction day.

Further Rule 4.16(6) of the Rules of the Clearing House provides that *"a Clearing Participant may close out all or any Open Positions of Client where the Client fails to comply with the demand for margin after a margin call has been made by the Clearing House"*.

Essentially, Clearing Participants are required to ensure that margins are collected either upfront or within 3 business days from transaction day failing which, the Clearing Participants must ensure that no new Market Contracts are entered into by the client which will further increase the margin exposure of the client. However, orders for risk reducing trades which would reduce the margin requirements of the client may be allowed.

For Clearing Participants who exercise a more stringent time frame for collection of margin from their clients (i.e. of less than 3 business days), they may, at their absolute discretion, ensure that no new Market Contracts are entered into by the clients which will further increase the margin exposure of the clients if the clients fail to meet with the demand of their margin calls. In this situation, the Clearing Participants may also reserve the right to close out all or any of the open positions of their clients who fail to meet with the demand of their margin calls.

**Directive No. 4-001: Appendix 1
Client Margin Guidelines**

Guideline 3 – Undermargined and Debit Accounts Trading

Therefore, the types of trading activity a client is permitted to conduct is very much dependent on the margin call status of the Client.

The Clearing Participant must notify the relevant Trading Participant of the client's failure to comply with the relevant margin requirements and require the Trading Participant to only allow the following types of trading activities:

1. for account which is properly margined or in the case of undermargined account with margin being forthcoming within a reasonable time
 - trading activities such as day trade, addition trade and/or liquidating trade are permissible.

(Please refer to Illustration 1 in the following Guideline 3.3)

2. for undermargined account with margin not forthcoming within a reasonable time
 - may conduct liquidating trade only. Addition trade and/or day trade activities are disallowed.

(Please refer to Illustration 2 in the following Guideline 3.3)

3. for debit account which is not secured with acceptable margin deposit
 - liquidating trading and/or no trading is allowed for the account until sufficient cash or acceptable margin deposit equal or greater than the debit amount are deposited.

(Please refer to Illustration 3 and 4 in the following Guideline 3.3)

4. for debit account which is secured by acceptable margin deposit
 - if the debit amount plus value of the acceptable margin deposit is equal or greater than zero, then trading activities such as day trade, addition trade and/or liquidating trade are permissible.

(Please refer to Illustration 5 in the following Guideline 3.3)

- if the debit amount plus value of the acceptable margin deposit is less than zero, only liquidating trade may be permitted. Addition trade and/or day trade activities are disallowed.

(Please refer to Illustration 6 in the following Guideline 3.3)

The types of permissible trading activity as referred to above are defined as follows:

- day trade – establishment and closure of trades on the same trading day
- liquidating trade – closure of an established position for purposes of reducing an account's margin requirement. Addition of positions like "spreads" or "lock-ups" which will result in a reduction in margin requirement will be allowed as this is line with risk reducing strategies.
- addition trade – establishment of trade which will increase an account's position and margin requirement.

**Directive No. 4-001: Appendix 1
Client Margin Guidelines**

Guideline 3 – Undermargined and Debit Accounts Trading

Please note the following assumptions used in all the illustrations:

1. Account balances and margin requirements are as of the close of trading day.
2. The account was properly margined on the previous trading day (Friday)
3. All margin calls are promptly issued and aged.

Dear Sirs,

MEMORANDUM OF DEPOSIT

In consideration of you providing me services relating to the clearing of futures or options contracts executed on my behalf from time to time, I, [Fill in name of client] of [Fill in the address of the client], have deposited or will deposit with you from time to time as may be required by you, the securities enumerated in Schedule 1 and such other securities that may be accepted by you (hereinafter referred to as "the Securities") on the following terms and conditions:

1. I confirm that I am entitled to pledge the Securities to you and where necessary, have obtained the relevant authorisation to do so in accordance with the requirements of the law, and that the Securities are free from liens, encumbrances or any prior pledge(s). In furtherance thereof I hereby pledge the Securities as part of or the total margin required by you in accordance with Rule 4.16 of the business rules of Bursa Malaysia Derivatives Clearing Berhad ("Bursa Clearing (D)"), arising from the Open Positions in respect of futures or options contracts traded on my behalf on the exchange i.e. Bursa Derivatives Berhad, which contracts are to be cleared by you. Open Positions means the position of a party under a futures or options contract whose rights or obligations have not expired or been discharged or where the rights/and or obligation under the futures or options contract are yet to be fulfilled.
2. I represent and confirm that the Securities are held in a central depository system maintained by Bursa Malaysia Depository Sdn Bhd ("Bursa Depository") and in this respect I shall transfer and/or cause to be transferred the Securities which are pledged to you under Clause 1 to a securities account held in your name or the name of your nominee with Bursa Depository, the particulars of which shall be furnished by you.
3. Upon transfer of the Securities in accordance with Clause 2, the Securities pledged under Clause 1 shall include all stocks, shares and other securities, rights or other property paid, distributed, accruing or offered at any time (by way of dividends, bonus, redemption rights, preference, option, warrant or otherwise) on, to or in respect of or in substitution of any of the Securities ("the Additional Securities") and all dividends paid or payable on the Securities and the Additional Securities ("the Dividends"). Reference to the word Securities wherever appearing in this Memorandum of Deposit hereinafter, shall include Additional Securities unless the context otherwise requires, or unless expressly excluded.
4. Notwithstanding that the Securities are transferred to you in accordance with Clause 2 and pledged to you in accordance with the terms of this Memorandum of Deposit, you shall have no duty or responsibility and shall be under no obligation to exercise any rights incident to the Securities including the exercise of power to purchase shares or stocks under any warrant or option or to take up any rights issue or voting rights. In the event that I intend to exercise any rights incident to the Securities including the exercise of power to purchase shares or stocks under any warrant or option or to take up any rights issue or voting rights, I acknowledge that I shall have to withdraw the Securities and that the withdrawal shall only be allowed by you in circumstances stipulated under Clause 8 unless determined otherwise by you and when withdrawn I shall be entitled to exercise the same in the manner that I deem fit without any further reference to you. In relation to Dividends, the same shall forthwith be released to me upon clearance of the Dividend cheque(s) or if the Dividends are credited directly into your bank account, receipt by you of the Dividends, notwithstanding that the securities have been pledged to Bursa Clearing (D) pursuant to Clause 5 herein.
5. I hereby consent and authorise that any or all of the Securities deposited and pledged with you in accordance with the terms of this Memorandum of Deposit may be pledged at any time and

Memorandum of Deposit**

from time to time to Bursa Clearing (D) who is the clearing house for the futures and option contracts traded on Bursa Derivatives as part of or the total margin required by Bursa Clearing (D) as security against the non-performance of your obligations to Bursa Clearing (D) in respect of clearing of futures or options contracts traded on Bursa Derivatives and that Bursa Clearing (D) shall at any time have full rights to sell, exchange, convert into money or otherwise dispose of or realise or concur in selling, exchanging, converting into money or otherwise dispose of or realise the Securities that have been pledged to and accepted by Bursa Clearing (D) ("Approved Securities"), or any part thereof as Bursa Clearing (D) may in its absolute discretion select and for such consideration and on such terms as Bursa Clearing (D) may think fit and to do all such acts and things as Bursa Clearing (D) may consider necessary or desirable for the realising of the Approved Securities or any part thereof if you default on your obligations to Bursa Clearing (D). The aforementioned is subject to the following conditions:

- (i) That the utilisation of the Securities shall be strictly limited to the purpose/s above;
 - (ii) That the Securities shall be made available to me for withdrawal in circumstances permitted in this Memorandum of Deposit and in the event that the Securities are not returned to me pursuant to the above, my recourse shall be against you as stipulated in Clause 10 and not against Bursa Clearing (D);
 - (iii) That the Securities shall be taken into account in computing the margin that has been deposited by me with you under Clause 1; and
 - (iv) That the value of the Securities shall be set off as against the sum owed to you arising from a default under Clause 11.
6. I further hereby agree to execute all relevant documents as may be required by you at any time and from time to time for the purpose of facilitating and giving effect to Clause 5.
7. I agree and consent that my rights to the exercise of and/or all or any dealings with respect to and in relation to the rights, benefits, powers and privileges in respect of or arising from the Securities and/or as conferred under the relevant laws and/or the constitution of the issuer of the Securities shall be subject to the terms of this Memorandum of Deposit. I further agree that I shall not enter into any dealings and/or any arrangement howsoever called with respect to the Securities except where permitted in this Memorandum of Deposit and/or by you.
8. I shall be entitled to withdraw any or all of the Securities deposited and pledged herein, by providing you with written notice thereof, in any of the following circumstances:
- (i) where the Securities are in surplus of the amount of margin required by you for the purposes stipulated in Clause 1 herein, to the extent of the surplus amount;
 - (ii) where the value of the Securities to be withdrawn is replaced/exchanged with any other securities or form/s of collateral acceptable by you or cash of equal value; or
 - (iii) where I no longer have any Open Positions in respect of futures or options contracts cleared on my behalf by you and have no sums outstanding owed to you with regards to my obligations stipulated in Clause 1 herein.
9. Subject to Clause 11, where the withdrawal of the Securities is permitted under Clause 8, the Securities shall be transferred to a securities account(s) designated by me subject to the rules and procedures of Bursa Depository and the said transfer shall not be effected later than two (2) business days from the date of receipt by you of the notice stipulated in Clause 8.
10. In the event that you are not able to return the Securities and/or the Additional Securities to me within the timeframe stipulated in Clause 9 ("Initial Period") for any reason(s) whatsoever, you shall within five (5) business days from the expiry of the Initial Period take measures to procure and return to me those Securities in specie and in the event that you are unable to procure such

Memorandum of Deposit**

securities due to circumstances beyond your control, you shall provide me with the market value of those Securities in monetary form. Market value of the Securities shall be computed based on the weighted average price of the Securities plus one percentum (1%) (of the weighted average price of the Securities) on the trading day or the last trading day, as the case may be, preceding the date that delivery of Securities in specie should have been made under this clause. I agree that once the aforementioned Securities in specie is returned or monetary compensation is paid to me pursuant to this clause, the same shall serve as full and final settlement of your obligation under Clause 8, Clause 9 and this clause and I shall have no further claim against you in relation thereto.

11. Where I default in the performance of any of my obligations arising from the Open Positions in respect of futures or options contracts cleared on my behalf by you, I acknowledge that you shall have full rights to sell, exchange, convert into money or otherwise dispose of or realise or concur in selling, exchanging, converting into money or otherwise disposing of or realising the Securities or any part thereof as you may in your absolute discretion select and for such consideration and on such terms as you may think fit to do all such acts and things as you may consider necessary or desirable for the realising of the Securities or any part thereof. The consideration received from the above, shall be utilised towards the discharge of the monies owing by me to you pursuant to the above default and the residue thereof (if any) shall be paid to me.
12. I hereby consent and agree to the transfer of the legal ownership of the Securities to any party arising from the exercise of your powers under Clause 11 and in connection thereto I authorise you to execute all relevant documents at any time and from time to time and accord to you all rights and powers to take the necessary steps to execute and give effect to the above said transfer. Notwithstanding the above, where required by you, I shall also execute all relevant documents for the purpose of executing and giving effect to the above said transfer.
13. I acknowledge and agree that the terms stipulated in this Memorandum of Deposit shall be subject to the business rules of Bursa Clearing (D), and all procedures, guidelines etc issued by Bursa Clearing (D) from time to time in connection with the depositing of securities for the purpose stipulated under Clause 1 ("the Provisions") and I shall comply with the Provisions as if the same is stipulated herein. In the event of any inconsistency between the terms stipulated in this Memorandum of Deposit and the Provisions, the Provisions shall prevail.
14. Where additional securities are deposited with you to satisfy the margin required by you for the purpose stipulated in Clause 1, the provisions of this Memorandum of Deposit shall equally apply to those additional securities deposited. In this respect, Schedule 1 of this Memorandum of Deposit shall be read to include the above additional securities as if enumerated therein and the word Securities wherever appearing in this Memorandum of Deposit shall also include the above additional securities.
15. Pursuant to Clause 14, where additional securities are deposited with you as margin, you shall provide me with written confirmation of such a deposit of securities.
16. Any demand, request or notice made under this Memorandum of Deposit by me or you shall be in writing and addressed to the address specified herein or such address as notified in writing from time to time.
17. I agree that you may deduct, from monies held by you, all fees, cost incurred, stamp duty and other charges relating to or in connection with the execution of this Memorandum of Deposit.
18. This Memorandum of Deposit shall be binding and enure to my and your benefit and our successors, legal representatives and permitted assigns.
19. I hereby indemnify you and hold you indemnified for any loss, legal costs (including third party costs), damage or liability suffered or incurred by you, whether directly or otherwise, arising as a result of your reliance on the representations made in Clause 1 in accepting the securities pledged under this Memorandum of Deposit.

LINE 3.b – Current market value of open short option contracts

This amount should show as a deduction, the current market value of open short option contracts carried in the clients’ accounts. Only in-the-money open short option contracts which have positive market value need to be disclosed. Out-of-the-money options have no market value as they would expire unexercised.

These amounts should not be netted against each other.

LINE 4 – Net equity / (deficit)

This amount should show the total of **LINE 1** to **LINE 3**.

This amount should agree with **LINE 7.a** or **LINE 8.a** of **Schedule 3(a) (FORM C)**. Securities used to margin the account are not to be used to reduce the debit balance to be reported in **Schedules 1(a) / 1(b) / 1(d) (Form A)** even though such securities are permitted as margin deposits.

Schedule 2(b) – EXPLANATORY NOTES TO FORM B

For the purposes of calculating Adjusted Net Capital:

- (a) all derivatives contracts must be marked to their current market value;
- (b) all unrealised profits and losses on all derivatives contracts must be treated as realised profits and losses; and
- (c) unless otherwise specifically stated, the value ascribed to all other assets and liabilities must be at their current market value.

I. NET CAPITAL (Line 1 to Line 5)

LINE 1 – Permitted assets

This amount should agree with the “Permitted assets” column on **LINE 16** of **Schedule 3(a) (FORM C)**. Refer to Schedule 2 of the Rules of BMDC for the definition of “Permitted Assets”. Note that “Permitted Assets” include securities listed on a stock exchange approved by the Clearing House under paragraph 1(b)(i)(iv) of Schedule 2.

LINE 2 – Total Liabilities

This amount should agree with the amount on **LINE 27** of **Schedule 3(a) (FORM C)**.

LINE 3 – Deduction from total liabilities.

LINE 3.a – Liabilities subject to satisfactory subordinated loan agreements

This amount should show the liabilities under a subordinated loan agreement:

- i. which has a remaining term to maturity of not less than one year; and
- ii. up to a maximum amount of four times the shareholders’ funds of the Clearing Participant.

LINE 3.b - Allowable long term liabilities

This amount should show long term liabilities owed to a financial institution under a commercial loan secured by a fixed charge over **real property** or **motor vehicles** owned by the Clearing Participant and applied for use in the normal course of the business of the Clearing Participant, up to an amount equal to the lower of net book value of 80% of the market value of the real property or motor vehicles. The market value of the assets should be valued by an appointed valuer on an 'as is' basis and should be revalued annually.

Example:

A Clearing Participant obtains a long term loan of RM4.0 million from a financial institution. The loan is secured by a fixed charge over real property owned by the Clearing Participant. The amount payable within the next 12 months is RM0.5 million and RM 2.5 million is the long term liability. The net book value of the real property is RM3.0 million. The allowable long term liability should be the lower of:

- (i) long term liabilities,
 - (ii) 80% of the real property's market value; or
 - (iii) net book value of the real property.
- (1) If the current market value of the real property is RM5.0 million, 80% of the market value will be RM4.0 million. Therefore, the allowable long term liability will be RM2.5 million.
- (2) If the current market value of the real property is RM3.0 million, 80% of the market value will be RM2.4 million. Therefore, the allowable long term liability will be RM2.4 million.

LINE 4 – Adjusted liabilities

This amount should show the difference between **LINE 3** and **LINE 2**.

LINE 5 – Net Capital

This amount should show the difference between **LINE 4** and **LINE 1**.

LINE 6 – Additional deductions

The Clearing Participant must provide the following charges to its Net Capital to compute its Adjusted Net Capital.

LINE 6.a – For securities held by the Clearing Participant for its proprietary account

LINE 6.a i – Malaysian government securities

LINE 6.a ii – Readily marketable Malaysian securities listed on the Main Market of Bursa Malaysia Securities Berhad

LINE 6.a iii – All other securities listed on Bursa Malaysia Securities Berhad

The percentage of charges are as follows:

1. For securities held by the Clearing Participant for its proprietary account

For the purposes of **LINE 6.b** and **6.c** of this statement:

Net equity refers to the combination of an account's cash ledger balance (debit or credit), profit or loss on exchange traded open derivatives contracts (except for exchange traded options), non-exchange traded open derivatives contracts (including CFDs) and the net current market value of open options contract.

Securities or collateral used to margin the account are to be used to reduce the Net Debit Balance in the account before such securities are used to reduce the initial margin.

Net current market value of open option contracts refers to current market value of open long option contracts less the current market value of open short option contracts.

LINE 6.b – *Amounts due from clients in respect of margin where such amounts are outstanding not less than 3 business days as at the computation date.*

An under margined situation arises if the net equity and secured collateral are not sufficient to cover the margin requirement for that particular client account. The margin requirement should refer to the Clearing House's margin requirement. The foreign

brokers' margin requirements to the Clearing Participant would be applicable to clients trading in foreign exchanges.

The under margin amount will be determined as follows:

- (a) If the net equity is in a net credit position, then the under margin amount will be:**

The margin requirement less net equity less secured collateral add/less net current market value of open options contract.

- (b) If the net equity is in a net debit position, then the under margin amount will be:**

The margin requirement less balance of secured collateral (secured collateral less amount used to secured net debit balance) add/less net current market value of open options contract.

An under margin charge will be imposed if the Clearing Participant has an under margin amount outstanding for more than 3 business days as at the computation date.

The charge will be imposed on the amount under margined on T day itself unless the under margin amount is fully eliminated. T day is the day when the derivatives contracts are executed by the Clearing Participant.

The under margin amount will only be fully eliminated if:

- (a) The total of net equity and any secured collateral become greater than the margin requirement either on T+1 or T+2 or T+3; or
- (b) There is no longer any margin requirement for the account either on T+1 or T+2 or T+3; or
- (c) Total cash received either on T+1 and/or T+2 and/or T+3 is greater than the under margin amount on T day.

However, if the account is also in a Net Debit Balance position on T day, any cash received will first be used to set off against the Net Debit Balance amount. The balance of the cash received can then be used to either fully or partially set off against the under margin amount on T day.

- (i) If the balance of the cash received (i.e. total cash received less Net Debit Balance amount on T day) can fully eliminate the under margin amount on T day, then an under margin charge shall not be imposed.
- (ii) If the balance of the cash received (i.e. total cash received less net Debit Balance amount on T day) can only partially eliminate the under margin amount on T day, then an under margin charge shall be imposed on the difference in the balance of the cash received and the under margin amount.

Example 1

	T	T+1	T+2	T+3 Computation Date
Cash ledger balance	21,397	21,397	21,277	21,277
Cash received	-	-	-	-
Net current market value of open Options contract	10,000	9,900	9,800	9,700
Open position profit/(loss)	720	9,320	10,330	10,000

Net current market value of open Options contract	(10,000)	(9,900)	(9,800)	(9,700)
Excess/(Shortage)	(3,883)	4,717	(7,393)	(7,723)

In this example, the under margin amount on T day is RM3,883. However, an under margin charge will not be imposed when computing the Adjusted Net Capital as the under margin amount on T day has been completely eliminated on T+1 since the net equity is greater than the margin requirement. The under margin amount of RM7,393 on T+2 is not subjected to a charge as it is outstanding for less than 3 business days as at the computation date.

The same principle will apply if the net equity becomes greater than the margin requirement on either T+2 or T+3.

Example 2

	T	T+1	T+2	T+3 Computation Date
Cash ledger balance	36,494	(16,947)	(15,606)	(25,505)

Excess/(Shortage)	(169,016)	(16,947)	(51,566)	(32,705)

In this example, the under margin amount on T day is RM169,016. However, an under margin charge will not be imposed when computing the Adjusted Net Capital as the under margin amount on T day has been completely eliminated since there is no longer a margin requirement on T+1.

No charge will be imposed for the under margin amount of RM26,000 on T+2 because this under margin amount has not been outstanding for more than 3 business days.

The same principle will apply if there is no longer any margin requirement on either T+2 or T+3.

Excess/(Shortage)	(412,775)	(305,555)	(171,085)	(33,511)

In this example, the under margin amount on T day is RM412,775. A charge of RM412,775 shall be imposed as a deduction against Net Capital when computing the Adjusted Net Capital because the under margin amount on T day has not been completely eliminated as at the computation date.

Example 4

	T	T+1	T+2	T+3 Computation Date
Cash ledger balance	1,725,942	1,724,742	1,723,742	1,721,342

Excess/(Shortage)	(207,738)	(285,998)	(956,398)	(1,458,548)

In this example, the under margin amount on T day is RM207,738. A charge of RM207,738 shall be imposed as a deduction against Net Capital when computing the Adjusted Net Capital because the under margin amount on T day has not been completely eliminated as at the computation date.

Example 5

	T	T+1	T+2	T+3 Computation Date
Cash ledger balance	(300)	(280)	(280)	(280)
Cash received	-	-	-	-

Net current market value of open Options contract				
Excess/(Shortage)	(33,550)	(8,580)	(6,780)	(4,980)

In this example the under margin amount on T day is RM32,500 (i.e. the margin requirement on T day). The under margin amount is **not** RM33,550 because this amount is inclusive of the Net Debit Balance of RM1,050 on T day.

A charge of RM 32,500 shall be imposed as a deduction against Net Capital when computing the Adjusted Net Capital because the under margin amount on T day has not been completely eliminated by the computation date.

Net current market value of open Options contract	-	-	-	-
Excess/(Shortage)	(15,652)	(22,532)	(31,572)	(20,772)

In this example, the under margin amount on T day is RM15,652. The under margin amount of RM15,652 has been partially eliminated by cash receipt of RM10,000 on T+3. The remaining balance of the under margin amount RM5,652 (i.e. RM15,652 – RM10,000) has not yet been eliminated and this balance has been outstanding for more than 3 business days as at the computation date.

A charge of RM5,652 shall be imposed as a deduction against Net Capital when computing the Adjusted Net Capital because the under margin amount on T day has not been completely eliminated by the computation date.

Net current market value of open Options contract	-	-	-	-
Excess/(Shortage)	(17,073)	(4,273)	(11,073)	(1,073)

In this example, the under margin amount on T day is RM17,073. The under margin amount of RM17,073 has been partially eliminated by the total cash receipt of RM17,000 on T+1 and T+3. The remaining balance of the under margin amount RM73 (i.e. RM17,073 – RM17,000) has not yet been eliminated and this balance has been outstanding for more than 3 business days as at the computation date.

A charge of RM73 shall be imposed as a deduction against Net Capital when computing the Adjusted Net Capital because the under margin amount on T day has not been completely eliminated by the computation date.

Example 8

Net current market value of open Options contract	-	-	-	-
Excess/(Shortage)	(31,572)	(20,772)	(8,202)	(8,102)

In this example, the under margin amount on T day is RM26,000 and the Net Debit Balance is RM5,572.

The RM10,000 total cash received on T+1 is required to set off the Net Debit Balance on T day. The balance of cash received after setting off the Net Debit Balance is RM4,428 (i.e. RM10,000 – RM5,572)

The under margin amount of RM26,000 shall be partially eliminated by the remaining cash balance of RM4,428. The balance of the under margin amount of RM21,572 (i.e. RM26,000 – RM4,428) has not yet been eliminated and has been outstanding for more than 3 business days as at the computation date.

A charge of RM21,572 shall be imposed as a deduction against Net Capital when computing the Adjusted Net Capital because the under margin amount on T day has not been completely eliminated by the computation date.

RULES OF BURSA MALAYSIA DERIVATIVES CLEARING BHD

**Directive No. 4-001: Appendix 3
Periodic Reports**

Example 9

	T	T+1	T+2	T+3 Computation Date
Cash ledger balance	2,768	2,768	2,398	2,398
Cash received	-	3,000	-	-
Net current market value of open Options contract	-	-	-	-
Open position profit/(loss)	(8,340)	(7,540)	(4,100)	(4,000)
Net equity	(5,572)	(1,772)	(1,702)	(1,602)
Margin requirement	(26,000)	(26,000)	(6,500)	(6,500)
Net current market value of open Options contract	-	-	-	-
Excess/(Shortage)	(31,572)	(27,772)	(8,202)	(8,102)

In this example, the under margin amount on T day is RM26,000 and the Net Debit balance is RM5,572.

The RM3,000 total cash received on T+1 is required to set off the Net Debit Balance on T day. However, the cash received is insufficient to fully eliminate the Net Debit Balance.

Therefore the under margin amount of RM26,000 has not been eliminated and this balance has been outstanding for more than 3 business days as at the computation date. An under margin charge of RM26,000 shall be imposed as a deduction against Net Capital when computing the Adjusted Net Capital at the computation date.

Excess/(Shortage)	(31,140)	(53,640)	(23,940)	(13,140)

In this example, the under margin on T day is RM31,140. Amount of collateral available to offset margin requirement is RM148,860 (RM200,000 less Net Debit Balance of RM51,140).

Example 11

	T	T+1	T+2	T+3 Computation Date

In this example, the under margin amount on T day is RM131,140 (i.e. RM100,000 – (RM51,140 + RM180,000)). A charge of RM131,140 shall be imposed as a deduction against Net Capital when computing the Adjusted Net Capital because the under margin amount on T day has not been completely eliminated by the computation date.

LINE 6.c – *The net debit balance arising from marking-to-market or interim settlement of outstanding derivatives contracts held by clients as at the close of business on the computation date.*

A charge on the client's account with a Net Debit balance refers to a charge that **may be imposed** if the net equity has a debit balance on the computation date and, **if imposed**, this charge must be deducted from the Clearing Participant's Net Capital in order to arrive at the Adjusted Net Capital.

This charge is computed as a percentage of the client's account with a Net Debit Balance if the client's account has a Net Debit Balance at the net equity level on computation date.

LINE 6.d – *The margin requirement on open contracts in the proprietary account of a Participant which are not bona fide hedged contracts.*

The reporting Clearing Participant must take a charge on the margin requirement for all uncovered derivatives granted (sold) positions in its proprietary account.

LINE 6.e and **6.f** will be defined as and when the haircuts are imposed by the Clearing House and the Exchange.

12. CONCLUSION

Directive No. 5-001: Appendix 1
Guidelines for Compliance Function for Clearing Participants

1. INTRODUCTION

- (1) Past financial crises have shown that vast amounts of money have been wiped out by bad behaviour such as unethical trading, excessive risk-taking, market manipulations, money laundering related penalties and weaknesses in internal controls. Due to this, regulation has taken on renewed importance and international regulatory standards are being reviewed and tightened.
- (2) The three lines of defence model consisting of the business line managers as the first line of defence, risk control and compliance as the second line of defence while the third line of defence being the internal audit as risk assurance, are vital controls within a Clearing Participant.
- (3) A corporate culture with high ethical standard is a reflection of a strong compliance culture that is instilled by the board of directors and senior management and practised by all levels of employees within a Clearing Participant.
- (4) It is imperative that sound compliance is practised to embrace the letter and spirit of the applicable laws, these Rules and Directives to ensure high standard of business conduct and ethics within a Clearing Participant that will safeguard investors' interests and integrity of the market place.
- (5) In light of the above, it is pertinent that the conduct of a Clearing Participant's business activities be subjected to the Compliance Guidelines.
- (6) The Compliance Guidelines are formulated to cater for all possible business and operational activities of a Trading Participant that is also admitted as a Clearing Participant. A compliance officer and participant must apply and comply with the requirements that are relevant to its business and operational activities. A compliance officer and Clearing Participant may omit to report those requirements which the Clearing Participant deems as inapplicable if it does not undertake the stated business and operational activities. For example, a Clearing Participant which is not a Trading Participant need not comply with obligations imposed specific to "Registered Representatives".

2. OBJECTIVES OF COMPLIANCE GUIDELINES

The objectives of the Compliance Guidelines are to:

- (a) provide a general guide on compliance which will serve as a basis for the formulation of the compliance manual and the measurement for the performance of the compliance function;
- (b) emphasise the role, duty and responsibility of the compliance function to the compliance officer (which refers to the registered Compliance Officer(s) of a General Clearing Participant and person(s) who is (are) responsible for the compliance function of a Direct Clearing Participant, and is referred to as "CO"), the board of directors and Clearing Participant;
- (c) enhance the quality and effectiveness of the compliance function;
- (d) set the minimum supervisory and monitoring standard for all Clearing Participants; and

Directive No. 5-001: Appendix 1
Guidelines for Compliance Function for Clearing Participants

- (e) provide an in-depth understanding of the duties and responsibilities of the compliance function in relation to other employees of a Clearing Participant.

3. PRINCIPLES AND CONCEPT OF COMPLIANCE FUNCTION

3.1 Control function

Also termed as the middle-office function, a CO must be independent of both back and front office and ensure that the activities of both the front and back office function are carried out without any conflict of interest. A CO must have no sales and/or operational function and must not be involved in trading (e.g. he must not be allowed to solicit or execute any orders on behalf of Client), settlement, funding, processing or reconciliation activities of a Clearing Participant. In this respect, the CO must only engage in full time compliance work.

3.2 Second Line of Defence

- (1) The compliance function acts as the second line of defence in overseeing the various policies and control procedures that are adhered by the first line of defence, i.e., the business lines, through its day-to-day activities.
- (2) Together with the internal audit, the third line of defence, the compliance function provides assurance to the board of directors and senior management on the effectiveness of the Clearing Participant's overall internal controls, risk management and governance systems and processes in complying with regulatory requirements and internal policies and procedures. The internal audit department and the compliance function should strive to complement each other and work towards achieving a high standard of compliance.

3.3 Advocate Compliance Culture

A CO is responsible for creating, promoting and cultivating compliance culture and making a high standard of compliance part of the day-to-day management of the Clearing Participant. A CO and heads of departments must maintain compliance by ensuring that all systems and procedures as identified by or agreed with the heads of departments that would enable the heads of departments to perform their responsibilities effectively are in place.

3.4 Advisory and Supervisory Role

CO must advise the management and board of directors of the Clearing Participant in relation to conformity to the Securities Laws, Rules and Directives ("**Regulatory Framework**"), as well as internal policies and procedures. The CO also has a supervisory and monitoring function over all employees to ensure they carry out their duties and obligations in compliance with the Regulatory Framework and internal policies and procedures. The supervisory and monitoring function of the CO does not relieve the heads of departments of their responsibilities.

3.5 Independence of Function

- (1) The compliance function must be a function without any potential conflict of interest in its responsibilities and is not hindered from highlighting non-compliances of any business lines to the board of directors or senior management as to achieve unflawed check and balance within a Clearing Participant.

Directive No. 5-001: Appendix 1
Guidelines for Compliance Function for Clearing Participants

- (2) In instances where the CO also assumes the duties of other control or administrative functions, the CO must ensure that the independence and ability to provide sufficient resources and commitment to the responsibilities in respect of the compliance function is not compromised and is carried out without conflict of interest, perceived or otherwise.

3.6 Overseeing Compliance and Maintenance of High Standards of Business Conduct

The CO is responsible for overseeing compliance within the organisation on a day-to-day basis and ensuring compliance with the Regulatory Framework as well as internal policies and procedures.

3.7 Promote Proper Conduct and Segregation of Duties

The CO must oversee the Clearing Participant's policies and procedures to ensure that all back-office and front-office employees of the Clearing Participant exercise proper business conduct, do not undertake any unethical practice and that their functions do not cause conflicts of interest. These policies and procedures must outline the necessary standards of personal and professional integrity expected of employees and that the Regulatory Framework is strictly adhered to by all employees of the Clearing Participant.

3.8 Access to documents

A CO must have unlimited and unfettered access to all information and records in relation to the Clearing Participant's business activities and must be authorised to question any employee regarding any conduct, business practice, ethical matter or any other issue which is relevant to the discharge of duties.

3.9 Liaison between the Clearing House / Regulators and the Clearing Participant

The CO must act as the point of reference between the Clearing House, Exchange, Commission or other regulators, where relevant, and the business lines on all compliance related matters. The CO is also to ensure that the Exchange, Clearing House or regulators, where relevant, are supplied with documents and information as and when requested.

4. COMPLIANCE AND GOVERNANCE

4.1 Tone from the Top

- (1) A Clearing Participant, as a whole, must be committed to the creation and maintenance of a compliance culture within its organisation. Key decisions and actions taken in regard to daily operations must be based on such a commitment, ensuring compliance with the relevant Regulatory Framework at all times.
- (2) In establishing and maintaining the compliance function, the Clearing Participant, through its board of directors and senior management must:
- (a) set the compliance culture within the Clearing Participant;
 - (b) provide necessary support to the compliance function whereby their actions must be indicative of this;
 - (c) ensure that employees understand their responsibilities in respect of compliance risk; and

Directive No. 5-001: Appendix 1
Guidelines for Compliance Function for Clearing Participants

- (d) promote an environment where employees feel safe and comfortable in reporting incidents and promoting transparency throughout the organisation through self-reporting.

4.2 Board Oversight

- (1) The compliance function of a Clearing Participant is ultimately the responsibility of the Clearing Participant. A strong and pro-active board of directors will foster an environment of strong internal controls and compliant procedures and practices. It will also help to inculcate compliance culture within the Clearing Participant.
- (2) The Clearing Participant, through its board of directors, must ensure the compliance function of the Clearing Participant is carried out in a holistic manner, including taking the following actions to:
 - (a) approve the organisation's compliance framework and policy and to oversee its effective implementation;
 - (b) approve significant policies and procedures throughout the organisation and ensure that a sound system of internal controls is maintained to safeguard shareholders' interest, company's assets and clients' interests. This covers not only financial control but also operational and compliance controls, as well as risk management;
 - (c) perform on-going evaluation on the effectiveness of the organisation's overall compliance risk management;
 - (d) appoint or ensure the appointment of a qualified person to perform the duties of a CO;
 - (e) appraise and deliberate on the performance of the Head of Compliance; and
 - (f) approve the termination or acknowledge the resignation of a CO, or when the approval or acknowledgement is delegated, to ensure that the termination or resignation is for a proper reason. The Clearing Participant, through its board of directors must be informed of the outcome of the exit interviews held with a CO and ensure that actions are taken to address deficiencies, if any, that resulted in the resignation or termination of the CO.

4.3 Management Oversight

- (1) The Clearing Participant, through its senior management in all business lines within the Clearing Participant, must effectively manage the compliance risk, as well as other inherent risks by developing and owning clear, comprehensive and up-to-date policies and procedures.
- (2) It is essential that the Clearing Participant, through its senior management ensures that the organisational structure, reporting lines and functional responsibilities of its employees are clear, adequate and up-to-date in writing. There should be a clear segregation of duties within each department as to avoid any potential conflict of interest situation.

4.4 Qualification and Competence

Based on the above, the Clearing Participant must, through its board of directors, appoint a CO with good character, business repute, qualification, experience and sufficiently broad knowledge and high level of expertise. In addition to the qualifications laid down in the Rules, the Clearing Participant must, through its board of directors, ensure that the CO is equipped

Directive No. 5-001: Appendix 1
Guidelines for Compliance Function for Clearing Participants

with the authority and ability to effect decisions and carry out CO's responsibilities effectively. The CO must be a person qualified to perform supervisory duties. Therefore, the CO must be a person holding a **senior position** in the organisation of the Clearing Participant, who can act independently and is able to fully effect decisions.

4.5 Resources

The Clearing Participant must support the compliance function by employing sufficient personnel with the necessary qualifications and authority. The role and function of the CO can be best performed and executed with proper tools and mechanism as well as the support of a compliance unit to ensure the efficacy of the compliance function and programmes. The size of the compliance unit of a given Clearing Participant would very much depend on the size and complexity of the business activities and operations.

4.6 Reporting to the Board of Directors or the Board Committee

The CO must report directly to the board of directors or such committee appointed by the board of directors, as the case may be. In the course of his duties, the CO may bring to the attention of the executive directors or other senior management of the Clearing Participant matters pertaining to compliance of the Clearing Participant so as to enable appropriate action to be taken.

4.7 Ultimate Responsibility of Ensuring Compliance within the Clearing Participant

- (1) The ultimate responsibility to ensure compliance with the regulatory requirements and internal control framework lies with the Clearing Participant, acting through its board of directors. The CO facilitates the attainment of these objectives and does not relieve the Clearing Participant of any of its responsibilities. The Clearing Participant, through its board of directors, must undertake effective oversight of the formulation, coordination and implementation of any supervisory or compliance programme.
- (2) Therefore when the Clearing Participant's board of directors fails to effectively supervise its overall business undertaking of the Clearing Participant or the activities of its employees, including commissioned dealers, or fails to act upon a notification from the CO, the Clearing House deems it a failure to act on the part of the Clearing Participant. In such an event, the CO must submit, a copy of the reports and recommendation pertaining to the breach of compliance and failure to act on the recommendation directly to the Clearing House.
- (3) Nevertheless, compliance is the responsibility of all staff within an organisation. All levels of business functions must carry out their responsibilities to ensure compliance with the Regulatory Framework as well as all internal control policies and procedures set up by the Clearing Participant.

5. DUTIES AND RESPONSIBILITIES OF A CO

5.1 The Role of the CO in relation to the Clearing Participant's Board of Directors

The CO reports directly to the board of directors or such committee appointed by the board of directors, as the case may be and has access (when necessary) to report, update, inform and make recommendations to the board of directors or such committee appointed by the board of directors, as the case may be, on all matters pertaining to compliance and breach (or likely breach). With the Clearing Participant's board of director's commitment and support in adopting

Directive No. 5-001: Appendix 1
Guidelines for Compliance Function for Clearing Participants

the compliance principles and governance framework, a CO would be able to implement and maintain an effective compliance function that can act as a deterrent against any wrongdoing by market participants and provide the necessary foundation for the protection of investors' interests in the market.

5.2 The Role of the CO in relation to other Departments or Functions within the Clearing Participant

The CO plays a supervisory role over every management level who is a supervisory head within the Clearing Participant to ensure that the Clearing Participant complies with all the relevant Regulatory Framework. In this respect, the CO keeps in constant communication and works closely with all supervisory heads within the Clearing Participant, with a view to supplementing reviews of the supervisory heads and ensuring that the necessary policies and procedures are in place to effect proper supervision of the respective departments of the supervisory heads. In practice, this can involve the direct participation of the CO in providing legal and regulatory input to business processes or decisions. For the purposes of the Compliance Guidelines, a "supervisory head" means a senior officer holding a managerial position and designated to direct or supervise a particular function in a Clearing Participant, who is generally a head of department but may include a manager reporting to the head of department.

5.3 Managing Compliance Risk

A CO must identify all compliance risks and implement controls into the Clearing Participant's day-to-day operations to manage these risks effectively.

5.4 Managing Conflict of Interest

Conflicts of interest management is one element of a CO's day-to-day role as part of maintaining proper conduct of the Clearing Participant - including by reviewing policies and procedures to effect proper corporate governance and policy on "Chinese Walls".

5.5 Identify Impact of Change in Regulation and Policies

The CO must analyse the impact of any regulatory and policy changes in its business operations and communicate and disseminate such impact (if any), effectively and in a timely manner throughout the Clearing Participant.

5.6 Assist in Situations of Non-Compliance or Potential Non-Compliance

Upon being notified of or identifying:

- (a) an event of non-compliance; or
- (b) a potential non-compliance event, including a risk of breach of rules and regulations,

the CO must inform the relevant supervisor and to work with the appropriate person to rectify the matter in an efficient and practical manner, recommend remedial action to the Clearing Participant and see to its successful implementation. A CO must review the course of action in the event of non-compliance, examine the extent of non-compliance and report to the Clearing Participant's board of directors or such committee appointed by the board of directors, as the case may be, and the Clearing House with proposed remedies. The CO must also address audit findings raised by internal, external and regulatory auditors.

Directive No. 5-001: Appendix 1
Guidelines for Compliance Function for Clearing Participants

6. SUPERVISION OF THE CLEARING PARTICIPANT

- (1) The duty of the CO is to do everything within its powers to ensure that the Clearing Participant achieves compliance with the Regulatory Framework by ensuring that there is adequate system or a set of written policies and procedures that provides for the system of monitoring in the front and back office functions. Areas of compliance in the business of a Clearing Participant generally relate to Clients, operational and financial compliance.
- (2) The CO undertakes an overall supervisory responsibility over the trading, clearing and operational functions of a Clearing Participant. A CO monitors ongoing business activity on a pro-active basis and oversees that compliance is met by ensuring that all systems and procedures are in place and maintained by all supervisory personnel.
- (3) A CO must ensure the establishment, maintenance and enforcement of an adequate supervisory and compliance system to generally supervise the overall proper running of its business activities and particularly, to supervise the activities of each Registered Representative, agent and other personnel. Such a system must be reasonably designed to achieve compliance with the Regulatory Framework.

6.1 Supervisory Programme

- (1) A prudent supervisory programme refers to a competent system of internal controls within a Clearing Participant. Proper management controls and diligent management enhances the credibility and reputation of a Clearing Participant and provides the necessary investor protection. The supervisory and control responsibilities of a Clearing Participant are crucial to the maintenance of the integrity of the marketplace.
- (2) A CO shall ensure the elements of a competent supervisory programme shall at least consist of:

(a) Written Policies and Procedures

- (i) A comprehensive documentation and written policies and procedures on the business operations are maintained and regularly updated to take into account any changes that may occur in the current Regulatory Framework. These procedures must be effectively disseminated and enforced throughout the Clearing Participant. The CO must ensure that the written policies and procedures established are adequate, meet industry standards, the regulatory requirements, and the internal requirements of the Clearing Participant by conducting reviews to ensure such policies and procedures meet regulatory and internal requirements and business lines have reviewed for adequacy against industry standards. Examples of written policies and procedures include policies and procedures on maintaining records of clearing activities for clients.
- (ii) Maintenance of an internal record of all persons designated as supervisory personnel and those delegated with supervisory functions, including the dates for which such designation was effective.
- (iii) Establishment of written policies and procedures of all transactions and correspondence of its Registered Representatives pertaining to the solicitation or execution of any transaction.

Directive No. 5-001: Appendix 1
Guidelines for Compliance Function for Clearing Participants

(b) Internal Review

The CO must ensure that, pursuant to the above, the relevant supervisory heads/heads of department perform their supervisory responsibilities effectively. Regular and periodic reviews of the Clearing Participant's business activities and the departments' functions must be carried out to assist in detecting and preventing violations of the Regulatory Framework. A complete written record of the details of such reviews conducted is to be maintained.

(c) Automation of Monitoring

As the complexity of a Clearing Participant's business operations grow, it is recommended that automation of monitoring is employed whenever possible and practical, particularly in areas of reporting and generating exception reports.

7. SUPERVISION OF COMPLIANCE FUNCTION

- (1) To be effective, the compliance function requires the formulation and implementation of tools such as compliance manual, compliance programme and checklist ("collectively referred to as a **Compliance Programme**"). These tools are to be tailored in accordance with the business operations of each Clearing Participant.
- (2) The overall objectives of a Compliance Programme are to ensure:
 - (a) the business activities are regularly monitored;
 - (b) the level of compliance of a business unit within the Clearing Participant are evaluated;
 - (c) compliance risk and any other inherent risks are mitigated; and
 - (d) areas of non-compliance are rectified.

7.1 Compliance Manual

- (1) A comprehensive compliance manual must be established and tailored to a Clearing Participant's respective needs and reviewed for adequacy by the CO. It must elaborate on the practical applications and detailed operations of the compliance function. The manual must specify among others, the monitoring, supervisory and review procedures in relation to the compliance function.
- (2) The manual must amongst others:
 - (a) include an outline for the compliance policies, procedures and controls of the Clearing Participant, to safeguard the Clearing Participant and its Clients from serious risks of loss and defalcation;
 - (b) contain adequate procedures designated to enable the Clearing Participant's business activities and the departments' functions to meet industry standards, regulatory requirements and the circumstances of the Clearing Participant;
 - (c) contain compliance policies and procedures designed to anticipate, as far as possible, the activities most likely to result in misconduct by the Clearing Participant;

Directive No. 5-001: Appendix 1
Guidelines for Compliance Function for Clearing Participants

- (d) contain compliance policies and procedures that are monitored, enforced and effectively communicated within the Clearing Participant;
- (e) be subject to regular periodic review or whenever there are major changes to the Regulatory Framework; and

This is to ensure that a business process is checked to identify, assess and respond to errors and other variances that would otherwise thwart compliance with an activity's procedures. - (c) There is no concentration of authority within the supervisory ambit of one person, (e.g. the head of operations in charge of the back office must not also be supervising the compliance function) and that there is proper segregation of functions (proper corporate governance). This would prevent the abuse of position/authority and would ensure that no one person is responsible for the supervision of a large number of department/employees without any corresponding check or control.

Directive No. 5-001: Appendix 1
Guidelines for Compliance Function for Clearing Participants
