SC and Bursa Malaysia Implement Temporary Revisions to Market Management and Control Mechanisms

The Securities Commission Malaysia (SC) and Bursa Malaysia Berhad (Bursa Malaysia) will implement temporary revisions to existing market management and control mechanisms, namely the dynamic and static price limits, and the circuit breaker, to provide added stability and confidence in the marketplace. The revisions will be applicable for a six-month period from 20 July 2020 to 18 January 2021.

The decision for these precautionary measures took into account global market conditions that remain volatile amidst persistent uncertainties due to Covid-19, continued economic weaknesses and the re-escalation of geopolitical tensions.

The SC and Bursa Malaysia will continue to closely monitor global developments and take a prudent approach in implementing the necessary measures to support a fair and orderly market.
