## 3.2 BACKGROUND INFORMATION OF OUR GROUP AND BUSINESS OPERATIONS

Our Company was incorporated in Malaysia on 9 August 2023 under the Act as a private limited company under the name of Crest Group Sdn Bhd and was subsequently converted to a public limited company on 8 December 2023 to facilitate the Listing.

The principal activity of our Company is investment holding while our Subsidiaries are principally involved in the provision of imaging, analytical and test solutions used primarily for quality inspection, sample analysis and R&D. We provide our solutions to a wide range of industries including semiconductor, E&E, academic, automotive, oil and gas, aviation, life sciences and healthcare.

We presently have offices in Malaysia, the PRC, Singapore and Thailand.

Our Group structure upon Listing is set out below:

A summary of our business activities and business model is set out in the following diagram:

For the Financial Years under Review and FPE 2023, the provision of imaging, analytical and test solutions was the largest revenue contributor to our Group, contributing 73.74%, 78.11% 83.57% and 84.35% to our Group's total revenue respectively.

For the Financial Years Under Review and FPE 2023, revenue from Malaysia was the largest contributor to our Group as it contributed 49.59%, 45.73%, 46.96%, and 37.96% to our Group's total revenue respectively. For FYE 2020, FYE 2021 and FPE 2023, revenue from Thailand was the second largest contributor, followed by revenue contributions from PRC and Singapore. For FYE 2022, revenue from PRC was the second largest contributor, followed by revenue contributions from Thailand and Singapore.

Further details of our Group and business are set out in Section 6 and 7 of this Prospectus.

#### 3.3 COMPETITIVE STRENGTHS

Our competitive strengths are as follows:

# (i) Our industry knowledge as well as technical expertise enable us to propose suitable solutions for our customers

LSW (our Managing Director), ACM (our Executive Director) and YKM (our Executive Director) have accumulated an average 28 years of experience in the imaging, analytical and test business, thus equipped with substantial industry knowledge and technical expertise to assist customers from numerous industries in providing solutions and solving problems as well as enhancing the quality and efficiency in quality inspection. Furthermore, to propose an optimised solution for a customer, thorough understanding of the customer's requirements as well as extensive knowledge on the functions of the equipment are required. Our sales and technical personnel are equipped with the aforementioned knowledge and expertise to propose optimised solutions that are tailored to the needs of our customers.

## (ii) We have business presence in 4 countries and a diversified customer base spanning across multiple industries and countries

In 1999, we commenced operations in Malaysia, and subsequently expanded our footprints to PRC in 2005, Singapore in 2008 and Thailand in 2010. The expansion of our business into these countries is a testament to our growth and signifies our ability to simultaneously maintain our presence in domestic market whilst penetrating into foreign markets. Further, establishing physical presence in foreign markets has enabled us to improve our visibility and accessibility to customers in foreign markets and widen our customer base, which has resulted in an increase in our sales and business. We also have a diversified customer base spanning across multiple industries, whereby our customers are mainly manufacturers and industry players in the semiconductor, E&E, automotive, oil and gas, aviation, life science and healthcare industries.

#### (iii) We have long-standing relationships with our wide network of equipment suppliers

Part of our imaging, analytical and test solutions include imaging, analytical and test equipment which is purchased from equipment suppliers, comprising principals and dealers. As at the LPD, we are an active distributor of 21 principals from 7 countries, including France, Germany, Japan, Malaysia, Switzerland, UK and USA. Having a wide network of principals as our suppliers gives us a wide selection for the most suitable equipment as part of our solutions. Further, we have also established long-standing relationships with our equipment suppliers, whereby we have at least 5 years of business relationship with all our major suppliers, who are mainly principals, in the Financial Years Under Review and FPE 2023.

#### (iv) We have an experienced key senior management team, led by our Managing Directors and Executive Directors with educational foundation in science

Our Group is led by an experienced and technically-skilled key management team that has accumulated yan average 28 years of industry experience and in-depth knowledge of our business operations. LSW (our Managing Director), ACM (our Executive Director) and YKM (our Executive Director) have the relevant background in science which they have leveraged on in building and expanding our Group's imaging, analytical and test business over the years. Our management team has strong industry and functional expertise as a result of years of experience in their respective fields. Further, they take an active, hands-on role in spearheading their respective departments to support the growth of our Group.

#### 3.4 BUSINESS STRATEGIES AND FUTURE PLANS

Our Group's business strategies and prospects are set out below:

# (i) We intend to set up a new headquarters ("New HQ") in Selangor to consolidate our operations in the Central region of Malaysia

We plan to establish a New HQ in Selangor to streamline and centralise our operations in the Central region of Malaysia. As at LPD, our offices in Selangor are located at 3 rented premises i.e. 2 offices located in Puchong, Selangor and 1 office in Subang Jaya, Selangor, which we plan to relocate and centralise at the New HQ. Having a centralised location will also allow our management team to better manage our operations and resources. Presently, we are in the midst of identifying a suitable commercial / light industrial premise within Klang Valley with a built-up area of approximately 1,858 sq. m. for the setup of the New HQ and we expect to purchase the premises within 36 months after our Listing.

# (ii) We intend to purchase additional demonstration equipment for our demonstration room in our Malaysia, PRC and Thailand offices

As part of our sales and marketing activities detailed in Section 7.11, we have set up demonstration rooms in our offices in Malaysia, Singapore, PRC and Thailand to display certain equipment for demonstration to our customers. By conducting equipment demonstration, we provide our customers with better insights and understanding on the features and capabilities of our solutions. We intend to purchase additional advanced imaging equipment and sample management equipment for our demonstration rooms in our Malaysia, PRC and Thailand offices. We expect to purchase the new demonstration equipment within 36 months after our Listing.

# (iii) We plan to expand our business presence to Vietnam and to continue expanding our business presence in the PRC and Thailand

We intend to further expand our presence overseas by establishing our presence in Vietnam and continue expanding our business presence in the PRC and Thailand.

#### (a) Setup of new offices

We plan to set up an office in Ho Chi Minh City for our expansion into Vietnam and one office each in Chengdu and Shenzhen for our expansion within PRC. We plan to rent office spaces in each of these locations with approximate build-up areas of 139 sq. m. each. We expect that the new offices in these locations will be fully established and operating within 36 months after our Listing.

#### (b) Hiring of personnel for the new and/or existing offices

We plan to hire new personnel to be stationed at the offices in the aforementioned locations. Additionally, we also plan to hire new personnel to form an additional team to offer our services and to secure new customers involved in the life science and healthcare industries, industries which we do not serve in Thailand as at the LPD. These new personnel will be stationed at our existing branch office in Bangkok, Thailand. The hiring of new personnel for our Ho Chi Minh City, Chengdu, Shenzhen and Bangkok offices is expected to take place gradually.

# (iv) We intend to expand our services and support team for our technical support and maintenance services

For the Financial Years Under Review and FPE 2023, our provision of after-sales services, which include technical support and maintenance services, accounted for 26.26%, 21.89%, 16.43% and 15.65% of our Group's total revenue respectively. We intend to further expand this business segment by hiring additional headcount to handle our technical support and maintenance services. We plan to hire 2 new service managers, whereby 1 personnel will be based in Selangor and another personnel will be based in Penang. We also plan to hire 8 new service personnel, whereby 5 personnel will be based in Selangor, and the remaining 3 personnel will be based at our existing offices in the PRC, Thailand and Singapore respectively. By expanding our technical support and maintenance services, we will be able to generate additional recurring income and consequently improve our financial performance.

Further details on our business strategies and future plans are set out in Section 7.20 of this Prospectus.

### 3.5 RISK FACTORS

Before investing in our Shares, you should carefully consider, along with other matters in this Prospectus, certain risks and investment considerations (which may occur either individually or in combination, at the same time or around the same time) that may have a significant impact on our future financial performance.

The following are the key risks and investment considerations that we are currently facing or that may develop in the future:

# (i) We depend on our ability to maintain our business relationship with our existing customers and to secure new customers

Our profitability and financial performance are dependent, to a large extent, on our ability to maintain and strengthen our business relationship with our existing customers and also to secure new customers. Our provision of equipment and imaging, analytical and test solutions to our pool of customers are mostly on a purchase order basis and there can be no assurance that purchase orders will continue to be issued. The purchases of our customers are, in addition, primarily dependent on individual capital expenditure, expansion plans and business strategies and therefore, our customers have no obligation to continue to engage us for provision of our solutions and services. In the event we are unsuccessful in adapting to factors such as rapid technological advances, unexpected changes in our customers' business and budget plans or any factors beyond our control in a timely manner, we may lose our customers and may face difficulty in securing sales from new customers, thus affecting our financial performance.

#### (ii) We are reliant on our equipment principals

Our Group relies on our equipment principals for the imaging, analytical and test equipment that we supply. As our Group does not manufacture or develop the equipment, our Group relies on the partnership with our equipment principals for our supply of a diverse range of equipment portfolio in order to meet our customers' demands. In the event our equipment principals decide to cease distribution of certain equipment or a change in their business direction, this may result in disruption to our business and operations. Under such circumstances, our Group will need to seek out alternative equipment principals. However, this may take time and affect our ability to continuously meet customers' demands. As at the LPD, we have not been informed of any potential changes in the business strategies of our product principals which may materially affect our supply chain nor have we encountered any dispute or disagreement with any of our suppliers which has materially affected or may materially affect our business operations.

# (iii) We are dependent on our Key Senior Management for the continued success and growth of our Group

We believe that our growth and success are, to a significant extent, dependent on the continued service, performance and efforts of our Executive Directors who play pivotal roles in our Group's day-to-day operations and who are adept and have extensive experience and market understanding in our business and industry. Our Executive Directors, LSW, ACM and YKM have been instrumental in the development of our business since our inception and have over the years, established long term relationships and built a network of customers and suppliers in the industry which significantly contribute to the continued success of our Group. We are also reliant on the continued service of our Key Senior Management who have in-depth technical and operational knowledge relevant to the demands of our business operations as well as the needs of our customers. However, there is no assurance that we will be able to retain our Key Senior Management. The loss of services from any of our Key Senior Management without suitable or timely recruit for replacements may result in an adverse effect on our Group's operations and financial conditions.

#### (iv) We are exposed to fluctuations in foreign exchange rates

We are exposed to fluctuations in foreign exchange rates as a certain part of our sales and purchases are transacted in foreign currencies. Our revenue denominated in foreign currencies accounted for 57.6%, 57.3%, 61.2% and 70.0% of our total revenue respectively, for the FYE 2020, FYE 2021, FYE 2022 and FPE 2023. Our purchases denominated in foreign currencies accounted for 91.5%, 94.0%, 94.4% and 95.6% of our total purchases respectively, for the FYE 2020, FYE 2020, FYE 2021, FYE 2022 and FPE 2023. As such, any significant change in foreign exchange rates may affect our financial results. We coordinate our sales and purchases to be in the same currency as much as possible to minimise our foreign exchange exposure as a form of natural hedging. Notwithstanding that, there can be no assurance that the exchange rate fluctuations will not affect our Group's financial performance. Any adverse fluctuations in the foreign exchange rates may have an adverse impact on our Group's revenue and earnings.

# (v) We are subject to operational risks and the risk of inadequate insurance compensation

Due to the nature of our business, we are susceptible to various operational risks such as accidents, outbreaks of fire or floods and natural disasters, which may cause disruption to our business operations and damage to our inventory, demonstration equipment, office and shipment. For the Financial Years Under Review up to the LPD, we have not encountered any major disruptions due to operational risks. However, there can be no assurance that any occurrence of major incident in the future would not adversely disrupt our business operations. Although the insurance we maintain are adequate coverage for our business and customary to our industry and level of operations, there can be no assurance that in the event of insurance claims, our insurance coverage would be sufficient to compensate in all circumstances the extent of losses, damages or liabilities incurred. Consequently, our business and financial performance may be materially and adversely affected.

Further details on the risks faced by our business and operations, the industry we operate in and investment in our Shares are set out in Section 9 of this Prospectus.

#### 3.6 IMPACT OF COVID-19 ON OUR GROUP

The outbreak of the COVID-19 pandemic since 2020 had led to minor interruptions to our business operations as our employees in our headquarters and branch offices were required to work from home for different periods and durations in adhering to the lockdown measures / movement restrictions imposed by the governments in the respective countries. Such lockdown measures / movement restrictions imposed led to minor delays in on-site installation, integration, commissioning as well as technical support and maintenance works as our employees were not allowed to travel to our customers' premises. Further, we also experienced minor delays in the receipt of equipment which we purchased from overseas countries due to the global supply chain disruptions.

As the lockdown measures / movement restrictions imposed by the governments in the respective countries in which we operate in have been uplifted, our business operations have since resumed to usual, we do not expect any further adverse impact to our business operations, cash flows, liquidity, financial position and financial performance moving forward.

### 3.11 DIVIDEND POLICY

It is our Group's intention to target a dividend payout ratio of not less than 30% of our annual PAT attributable to the shareholders of our Group. Our Board will consider, among others, the level of cash and level of indebtedness, required and expected interest expense, cash flows, profits, return on equity and retained earnings, as well as our projected levels of capital expenditure and other investment plans, when recommending dividends for approval by our shareholders or when declaring any interim dividends.

For the Financial Period Under Review and up to LPD, our Group declared and paid the following dividends to shareholders of the respective subsidiaries:

	FYE 2020	FYE 2021	FYE 2022	FPE 2023	1 August 2023 up to the LPD
	RM'000	RM'000	RM'000	RM'000	RM'000
Dividends declared / paid	1,500	19,315	21,583	1,324	14,113 <sup>(1)</sup>

#### Note:

- (1) The following dividends were declared subsequent to 1 August 2023:
  - (a) On 21 August 2023, Crest Thailand declared a dividend of THB14.2602 per ordinary share equivalent to RM1.8816 per ordinary share amounting to THB855,611 equivalent to RM112,893, which was paid on 11 September 2023.
  - (b) On 7 December 2023, Crest Systems declared a special dividend of RM14.00 per ordinary share amounting to RM14,000,000, which was paid on 12 December 2023.
  - (c) As at LPD, there is no outstanding dividends declared but remained unpaid.

Further, our Group intends to declare a final dividend of up to RM6.0 million for FYE 2023, upon the finalisation of the audited financial statements for FYE 2023. The timing of the payment is expected to be prior to the Listing of the Company. The above dividends were funded by internally generated funds sourced from our operations. The dividends paid will not affect the execution and implementation of our future plans or business strategies.

Further details of our dividend policy are set out in Section 12.15 of this Prospectus.
